**Zone Numbers
&
Detailed Definitions**

2001 TRAFFIC ZONE BOUNDARIES

*Prepared for the
Transportation Information
Steering Committee*

*By the
Data Management Group
University of Toronto
Joint Program in Transportation*

January 2003

PREFACE

This report presents the 2001 traffic zone boundary definitions. The report is divided into two parts. The first part presents the traffic zone numbers by local municipalities in the 2001 TTS survey area. The second part presents detailed zone descriptions by overlaying the zone boundaries on a graphical representation of spatial features such as streets, rivers and railroad tracks.

The 2001 traffic zone system includes all areas surveyed in the 2001 TTS. It has been customised for the 2001 TTS data. The 2001 traffic zones are similar to the 1996 GTA zones. Within the GTA, minor modifications have been made to the zones in the City of Toronto, Peel Region and Halton Region. For more information, please contact:

Data Management Group
